

## EPS® 2121

### All-Acrylic Emulsion

#### MARKET SEGMENT: ADHESIVES

#### COMMON APPLICATIONS: PRESSURE-SENSITIVE ADHESIVES

EPS® 2121 is an all-acrylic general-purpose pressure-sensitive adhesive emulsion for removable applications. EPS® 2121 exhibits low peel, moderate tack, and high shear values. Typical values below are for the neat polymer.

#### PERFORMANCE BENEFITS

- 180 Peel (PSTC-101) 1.4 lbs/inch
- Loop Tack (PSTC-16) 2.3 lbs/square inch
- Static Shear (PSTC-107)\* >10,000 minutes (1"x1"x1kg)

#### TYPICAL PROPERTIES

<b>Weight Solids</b>	50.00 ± 0.70%
<b>Weight/Gallon</b>	8.50 ± 0.10
<b>pH</b>	7.0 - 8.0
<b>Volume Solids</b>	49.0 ± 0.70%

These typical properties do not represent specifications.
