

Engineered Polymer Solutions Completes Specialty Polymers, Inc. Integration

CHICAGO (December 6, 2022) – EPS® - Engineered Polymer Solutions has completed its integration with acrylic polymer company Specialty Polymers, Inc. (SPI) on schedule. Through this integration, EPS has broadened its product portfolio and technological expertise, further diversifying its position as a front-runner in the polymer and pigment dispersion industry.

“SPI customers are now EPS customers, and we look forward to providing exceptional customer and formulation support to all,” says Lynn Spataro, Vice President of Sales and General Manager, EPS. “Our sales, customer service, marketing and operations teams have worked methodically to ensure operational ease from submitting orders to shipping products during the transition.”

SPI products will continue to be sold by EPS under their trusted product names like RayCryl®, RayFlex®, RayKote®, RayTech® and RayRez®. To learn more about the integration, contact your EPS sales representative.

###

About EPS

Engineered Polymer Solutions (EPS) provides high-performance, high-value resins specifically designed for the construction, industrial and architectural coatings industries, and for adhesives. As a global manufacturer of CCA colorants to the consumer paints and industrial coatings industries, EPS offers a broad colorant technology portfolio for both POS and In-Plant OEM clients. With a personalized approach, innovative technology, consistent product performance, formulation support and exceptional technical service, EPS makes doing business easy.
