

PRESS RELEASE

EPS/CCA and Ravago Chemicals announce distribution agreement

CHICAGO, Illinois, Oct. 22, 2018. – Engineered Polymer Solutions (EPS), Color Corporation of America (CCA), and Ravago Chemicals announced a new distribution agreement for the United States. Starting December 1st, 2018, Ravago Chemicals will become the exclusive national distributor of EPS resins and CCA colorants in the United States. This is an expansion of a long-standing relationship between the two companies that began in 2003.

“After 15 years of partnership with TH Hilson in the Midwest, EPS is excited to expand into a national distribution arrangement with Ravago Chemicals and their subsidiaries: TH Hilson, TMC and Pacific Coast Chemicals,” said Henry Bunch, vice president of sales, EPS. “This is a strategic alliance where both parties are investing in future growth and targeting best-in-class products, supply chain and service coast to coast through a single distribution source. We look forward to mutually providing an outstanding customer experience for years to come.”

"We are excited to expand our relationship with EPS as their National Distributor," says Kevin Wettstein, Vice President / General Manager for Ravago Chemicals. "Their technical and product leadership in the marketplace further strengthens our offering of best-in-class solutions for our customers. We look forward to utilizing our brand of customer service and technical sales, together with innovation-driven solutions from EPS/CCA, to support customers in our targeted market segments."

About EPS and CCA

Engineered Polymer Solutions and Color Corporation of America provide performance-based resins and colorants specifically designed for the architectural, industrial, construction and adhesive markets. The company offers a wide range of acrylic emulsions and conventional resins, as well a very broad colorant technology portfolio for both POS and In-Plant OEM customers.

About Ravago Chemicals

Ravago Chemicals represents market-leading specialty chemical producers that enable technical solutions and provide high-level service to more than 15,400 active customers through 95 warehouses across more than 24 countries worldwide. In the United States, Ravago Chemicals is comprised of three commercial channels: TMC Materials in the Northeast, Southeast, and Southwest; TH Hilson in the Central region; and Pacific Coast Chemicals in the Western region.
